Pre-season engagements & planning with partners

LRMP landscape condition, spatial fire plan, VAR, etc.

RMAT facilitates for AA
VAR (probability/consequences/priorities)

Develop feasible strategies, including “No Action” (starting point)

Select the best strategy
AA
AA looking at TOA

Implement strategy IMT

Monitor aviation/ground analytics
AA + IMT + RMAT

Ask: Is strategy still valid?
AA + IC + RMAT

Concrete aviation use

Collector data (ground)/ATU (air)

Resource assignment timelines and summaries

Plan near-term resource use/adjustments based on findings
