

# When the unthinkable happens...

Do you know what support the Forest Service has in place on your worst day?

## What is CAP?

The Casualty Assistance Program is here to assist and support employees when a serious injury or fatality takes place.

The program applies to work or non-work related (off-duty) fatalities and serious injuries and illnesses, and may provide family members with: Family and hospital liaisons, Benefits and entitlements assistance, Transportation and burial assistance, Mortuary and funeral honors assistance, Emotional support resources, and Public affairs assistance, including working with the media.

## What is CISM?

Critical Incident Stress Management is a peer support-based program that provides support and training to impacted employees of traumatic stress. This program brings in support from the Forest Service and interagency partners to include peers and a mental health professional when needed.
